

306 Federal Building
Salt Lake City, Utah
November 14, 1952

Mr. E. J. Duncan
The Supervisor
U. S. Geological Survey
Casper, Wyoming

Salt Lake City 029665 (Cana.)

Dear Mr. Duncan:

The following information with reference to status of operations on Permit Salt Lake City 029665, cancelled effective October 27, 1952, was requested in your letter of November 8, 1952:

Records of this office show a well spudded by Utah Oil Refining Company September 24, 1924 to a total depth of 80 feet. Location is given as 210' N/S and 210' E/W line SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 3, T. 22 S., R. 19 E., S. L. M. The records further show no oil, gas or water sands were encountered and only one joint of 8 $\frac{1}{2}$ " casing was set in the hole. An inspection of the well made May 24, 1929 showed approximately 35 feet of open hole and the top of 8 $\frac{1}{2}$ " casing about 6" above ground level.

The well in its present condition can do no subsurface damage and is not a hazard at the surface. If you consider it advisable and necessary, the remaining open hole will be filled from the surface with shale on some of our future inspection trips to the area.

It is recommended that the status of the well be considered as plugged and abandoned and the case closed as satisfactory compliance with the operating regulations.

Very truly yours,

E. W. Henderson,
District Engineer.

EWH:m

Co Washington

Utah Oil Refining Co. Well #1

SWSW NW Sec. 3-22S-19E (S.L.-029655)

Drilled to a depth of about 80' in the
last part of Sept. 1924. Spudded Sept. 24, 1924.

Location 210' N and 210' E of West $\frac{1}{4}$ corner Sec. 3.

Visited May 4, 1929 by H. L. Barton with
following results:-

$8\frac{1}{4}$ " casing shows above ground level 6". 1 joint
of $8\frac{1}{4}$ " is the only casing in the hole,
Water stands at 35'

Bottom of hole 50', as found.

No cellar.

Date: 11-2-32

SUBJECT: Permit Cancellations.

SERIAL NO: SLC. 02966

Dear Sir:

Under date of 10-28-32, we were advised that this permit was canceled effective 10-27-32.

If any operations have been started on this permit, which are not now in a condition satisfactory to your office, please advise the permittee or authorized agent that you are instructed by the Supervisor to require the necessary work. A copy of all correspondence will, of course, be forwarded to this office.

Your request should give a specific time limit, such as conditions may warrant, within which a Notice to do the work must be received in your office and a later date by which work must be commenced and prosecuted diligently to completion, stating also that if the Notice is not received as specified, recommendation will at once be made to perform the work at Government expense, looking toward reimbursement under the surety bond.

In event no action is taken within the specified time, please report promptly, in triplicate, as instructed in Casper circular letters of April 1 and April 8, 1929.

Very truly yours,

Hegner
